The Smoke Alarm Professionals.

This strictly limited offer applies for all new properties from 1st May 2010 to 31st July 2010 only, and is available for any property that we do not currently service. After our first attendance at the property, we will submit our standard \$75.00 invoice, but this will cover 2 years of servicing. That's equivalent to just **\$37.50** per year for the next 2 years. You won't receive another invoice for 2 years! This is the absolute lowest cost in the industry by a long, long way.

2 YEARS FOR THE PRICE OF 1 EQUIVALENT TO JUST \$ 37.50 PER YEAR UNLIMITED VISITS

Making the switch is very, very simple. We will take over and honour any existing contract with another provider at no cost, and service the property until the existing contract expires, ensuring that your owners pay nothing more. Only when the existing service plan expires do our Annual Services charges commence. And then your owners enjoy **2 years for the price of 1** from that date.

More than 100,000 landlords put their trust in Smoke Alarm Solutions for very good reasons. We are pioneers in our industry and have been providing outstanding service since legislation was introduced in 2007. Unlike many new entrants into the industry who believe it's all about price and less about service, we continue to provide service standards that are the envy of the industry.

To find out more about how easy it is to make the change, and to delight your owners with this cost-saving special offer:
